

TRANSFER PATHWAY GUIDE FOR STUDENTS

Step 1: Review the options for transfer partner institutions on the following page.

Yes, you can also consider schools that aren't on the list, but you will need to determine their processes.

Step 2: Note the deadlines.

Step 3: Assemble the materials you'll need. See tips in the chart.

Step 4: Apply.

Step 5: Request transcripts

Step 6: Let Hampshire know your plans. You will fill out the Declaration of Intent form.

For support in considering your transfer options, please contact:

Transfer Partner Institutions:

The colleges and universities on page 3 have transfer agreements in place with Hampshire and are in the process of partnering with Hampshire to develop specific credit mapping procedures aimed at enabling the smoothest possible transition for our students. The detailed information on the following page applies to transfer applications for enrollment in the fall 2026 semester.

Tips for Preparing your transfer materials:

- > **Transcripts:** You request your transcripts to be sent through a platform called Parchment. Official transcripts must be sent through this platform to other institutions. We always recommend having a copy sent to yourself as well to use as an unofficial transcript.
- > **College Report:** As part of your transfer application, you may be required to submit a College Report form. For this, you complete the top section under "Student Details," then send that to advising@hampshire.edu. In that message, include a list of the institutions you're applying to and the email addresses where we should send the completed form.
- > **Hampshire Courses:** We recommend saving the syllabi from the courses you've taken at Hampshire in a place you will continue to have access to like your desktop or personal cloud storage. You may be asked for these at some point by the other schools to determine transfer credits.
- > **International students transferring to another institution will need:**
 - Official TOEFL or IELTS scores
 - Transcript evaluations (if applicable)
 - Affidavit of financial support
 - Copy of passport and visa,
 - I-94
 - SEVIS Transfer Eligibility Verification Form

For students registered with the Office of Accessibility Resources and Services (OARS): Please note that by law, post-secondary schools may not discriminate against students with disabilities in the admissions process.

- > Applicants may not be asked about, or required to disclose, their disability before admission; disclosure of a disability in the admissions process is voluntary.
- > Students have the right to request reasonable accommodations required during the admissions process itself, though may need to disclose and/or document a disability to engage in that request.
- > Once admitted and enrolled, students have the choice to register with the Accessibility Services office at their transfer institution. Any previous records you request from OARS will be delivered directly to you to provide to Accessibility Services at your transfer institution once enrolled, to engage in the interactive process of requesting accommodations.
- > Because disclosure of a disability is not required in the admissions process, you will be eligible to register to request services and accommodations once admitted for transfer and enrolled. Completing accommodations records requests and registration processes before the fall semester is recommended to ensure continuity of accommodations at your transfer institution.
- > OARS is available to consult about your rights and responsibilities in the accommodations process, you are encouraged to meet with OARS for support in access planning and to discuss your specific case details.
