Family & Friends

October 20–22, 2017 |  Hampshire College

welcome to

Family & Friends 2017!

This weekend is an opportunity to immerse yourself in Hampshire's vibrant campus life. I hope you'll enjoy the presentations and performances that showcase our extraordinary students, alumni, and faculty; celebrate fall at the Farm Festival; and connect with other members of this wonderful community.

Enjoy the festivities! And as always, please keep in touch.

Sincerely,

A handwritten signature in black ink that reads "Melissa Mills-Dick". The script is fluid and cursive, with the first name "Melissa" being the most prominent.

Note: You must present your name tag in order to use the weight room.

SOURCE Wall of Resilience

Franklin Patterson Hall, exterior

Created as a Div III project by **Mikaela Gonzales 13F**, this mural reflects the power, connectivity, and divinity of femmes and trans femmes of color in the fight for Black and Brown liberation. The medium was chosen for its ability to express political realities through collective imagination. A mural takes the form of a monumental public installation, a work of art that is accessible and reflects community dialogue. From the conception of the project, the artist recognized the importance of working collaboratively, valuing the voices of many, and the mural was imagined and co-created by members of Hampshire College SOURCE (Students of Under-Represented Cultures and Ethnicities). This public artwork responds to a need to simultaneously claim space and build resilience in community. The mural is installed on the west-facing exterior wall of Franklin Patterson Hall, where it stands as a permanent offering to past, present, and future communities of color at the College, working against white supremacy, patriarchy, and transphobia within the campus culture and far beyond. (Description taken from the artist's statement)

Sometimes by Chance the Two Collide

Friday, 9 a.m.–7 p.m.; Saturday and Sunday, 10 a.m.–5 p.m.

Curated by Gallery Alumni Fellow Charlotte Hawkins 13F

Featuring new and recent work by faculty teaching across the visual arts, architecture and art history, this exhibition showcases the rigorous research, formal acuity and experimentation, and creative and critical questioning that underpins arts pedagogy at Hampshire.

Wayfinding: Bill Brayton and Naomi Darling

R.W. Kern Center, Gallery

Wall sculptures by Bill Brayton, professor of art, read like architectural drawings in space across the walls of the Kern gallery. They are inspired in part by Polynesian nautical stick charts — early navigational aids that mapped ocean swells — and sculpted from locally sourced steam-bent white oak and a lightweight hybrid concrete of his own devising. The sculptures are presented in dialogue with etchings by Naomi Darling, assistant professor of sustainable design, in which she layered historical maps and geological surveys of the Connecticut River Valley and Long Island Sound with markers of her own movement and memory in each region. The etchings' frames are made of leftover pine from the Kern Center construction, reflecting Hampshire's ethic of reuse and sustainability.

Natalie in Her Garden, by Olivia Dalmedo 14F

Emily Dickinson Hall, Main Stage Theatre

Natalie in Her Garden is a magical-realist play about healing and finding community in the aftermath of trauma. Natalie, a woman who has just left an abusive relationship, finds herself trapped in an icebox. In it she meets three mysterious women and together they look for ways to escape while trying to protect another from the same fate.

Thursday, October 19, 8 p.m.
