ORIENTATION 2015

WELCOME

TO ALL 15F STUDENTS!

WE'RE GLAD YOU'RE HERE! Your journey at Hampshire begins with orientation, a time for you to learn about the college, meet new people, and settle in. The program you are about to take part in is designed to give you a sense of daily life on campus. Through performances, presentations, and a variety of activities, you will begin to experience what it means to be a part of the Hampshire community.

Orientation leaders are one of your best resources on campus. They chose to be leaders because they want to help you as you begin to establish yourself at Hampshire—take advantage of that! Remember, they are here for you.

As you participate in activities throughout the week, there may be times when you feel overwhelmed or uncertain. Keep in mind that orientation is only the beginning of your Hampshire experience. There will be many more opportunities over the course of the coming semesters for you to get involved and learn more about Hampshire. The office of new student programs will reach out to you throughout the year with information and resources to keep you aware and informed. In the meantime, ask questions, get involved, and enjoy!

MCKINLEY E. MELTON ON "FACING THE FIRE THIS TIME: JAMES A. BALDWIN AND A PROPHECY FULFILLED?"

Robert Crown Center, gymnasium

There are many reasons why James Baldwin's *The Fire Next Time*, equal parts testimony and prophesy, continues to endure more than 50 years after its publication. Baldwin's essays, framed as they are through personal reflection and social critique, continue to compel readers to challenge the ideas and the institutions to which they have committed themselves. In the contemporary moment, just as in 1963, we are charged with the ever-deepening responsibility to critique and analyze the world around us, and to better understand our place within it. How might Baldwin's words aid us in the effort to navigate our current conditions? How has his work prepared us for such a time as this?

McKinley E. Melton earned his Ph.D. from the W.E.B. Du Bois Department of Afro-American Studies at the University of Massachusetts Amherst and earned B.A. degrees in English and in African & African American Studies from Duke University. Melton is currently a Postdoctoral Fellow at the Fox Center for Humanistic Inquiry at Emory University, and was also awarded a 2015-16 Junior Faculty Career Enhancement Fellowship by the Woodrow Wilson National Fellowship Foundation. His research focuses primarily on the relationship between the spiritual traditions and the literary, artistic, and cultural expressions of the modern Black diaspora. Melton's published works include essays on the writing of James Baldwin, Richard Wright, James Weldon Johnson, and Rev. Dr. Martin Luther King, Jr.

A former member of the faculty at Hampshire College (2007-2012), Dr. Melton is now an assistant professor of English at Gettysburg College. His teaching interests are in literatures of Africa and the African Diaspora, most specifically 19th- and 20th-century African American literature, and his courses are designed to engage the intersections of social, political, and cultural movements as part of a critical approach to Africana literature. His talk will include an audience Q&A.
