| <b><u>CO-CURRICULAR COURSES (CCR)</u></b>  |      |           |         |                                |                                      |                        |               |
| <i>Co-curricular courses offer opportunities for skills development, innovation, personal growth, and experience-based learning outside of the regular curriculum of the college. These courses meet on the same schedule as academic courses, and require registration following the same procedures and deadlines. Co-curricular courses do not normally satisfy distributional or Divisional requirements unless they are cross-listed with a School's curriculum. They may form a part of a Division II concentration, and are otherwise very important extra resources that supplement the core curriculum.</i> |      |           |         |                                |                                      |                        |               |
