The screenshot shows the Hampshire College website interface. At the top, the text "HAMPSHIRE COLLEGE" is displayed in white on a dark blue background. To the right, there is a "LOG OUT" button with a user icon. Below the header, a navigation menu contains four buttons: "Home", "Housing", "Academic" (which is highlighted in blue), and "Personal". On the left side of the main content area, there is a light blue sidebar with the heading "Options" and two links: "Advising Questionnaire" and "Course Preferences". The main content area has a white background and features a heading "Welcome to Academics". Below this heading, there are three paragraphs of text providing instructions for transfer students. The first paragraph states that all students are asked to complete a questionnaire to introduce themselves to their academic advisor. The second paragraph explains that students will enter their course preferences, which will be used by Central Records to register them for courses. It also mentions that students can make changes to their schedule during the add/drop period and provides contact information for the Central Records Office. The third paragraph suggests that students unfamiliar with the academic program should read the Division I requirements before entering their course preferences.

Students with remaining distribution requirements left to satisfy will be prompted to select these courses in Step 2. Please complete the following steps:

1. [Browse the course descriptions](#) to learn more about the focus of a course.
2. Indicate your course preferences for remaining distribution requirements.
3. Indicate your other course preferences.
4. Indicate your preferences for language courses.

To begin browsing course descriptions, [proceed to Step 1](#).

Viewing Your Class Schedule

In mid-August, you will be able to see your preliminary schedule of classes on TheHub, which may change slightly prior to your arrival. Before classes begin in September, you will have a scheduled meeting with your advisor. At that time, you may discuss making changes to your schedule and registering for instructor permission, independent study, Five College, OPRA, and other upper-level courses not available through this process. After your advisor meeting in September, you will be able to participate in add/drop on TheHub.

Browse Courses

You can view the complete course description and the faculty biography by selecting a course from the list below. If you find a course that interests you, simply click the button labeled "Remember This Course". Please note that this is not a complete list of all courses offered in the fall, but is limited to courses available through this process.

If you have remaining distribution requirements to fulfill, in Step 2 you will be able to identify four 100- or 200-level courses designated as satisfying distribution in the appropriate areas. All remaining distribution requirements must be completed in your first semester of enrollment. Language courses (listed in step 4) can satisfy the Culture, Humanities, and Languages (CHL) distribution requirement.

With the exception of distribution courses, transfer students should choose primarily 200-level courses. Identify 12 courses that you would consider taking during your first semester. You will be able to include at most two 100-level courses in this list.

Once you're done browsing course descriptions, or wish to **make changes to courses you previously entered**, [proceed to Step 2](#).

Select a course:

This screen will be personalized to each individual transfer student and will require entries only for remaining distribution areas. Students who have fulfilled four out of five areas with transfer work will skip this step.
