

## What makes our Cultural Center unique and necessary?

- It's a **home** away from home.
- Multiple student groups **coexist** in one space that supports their needs.
- The **student---driven** programs provide experience with collaboration creativity, and project implementation.
- There is support of **intersecting** identities---students can participate in multiple groups, expressing and engaging their different selves.
- Student's initiatives and **social activism** are supported and encouraged.
- Students' can examine racial/cultural complexities and difference, and get to know others and seek where they are in their **exploration** of self.
- It's a space to hold **safe** discussions, where "race" is not a bad word.
