

HAMPSHIRE FACULTY AND STAFF
What to do if you have Tested Positive for COVID-19 or
Have been in contact with someone who has Tested Positive for COVID –19?

Staff or Faculty Covid exposure	Can you work on campus?	Do you need to be tested	Whom do I notify?	Where do I go for care?
You tested COVID-19 Positive You have been tested and are informed you test positive	No , you will need to self-isolate at home until instructed you are no longer infectious by public health officials.	After a COVID-19 positive test, you do not necessarily need additional testing.	Call your immediate supervisor and email Human Resources.	Your healthcare provider will manage your health needs. Public health officials will be in touch to find out about close contacts and will advise you about return to work timing.
A household contact tests positive Someone you live with, a roommate, significant other	No , you should self-quarantine and follow these CDC guidelines . Work from home and do not go into public spaces for at least 14 days.	Yes , household or other close contacts should be tested for COVID-19, even with no symptoms.	Call your immediate supervisor and email Human Resources.	Your healthcare provider will manage your health needs. Continue to self-monitor your health daily . Public health officials will advise you about returning to work timing.
A close contact tests positive Someone with whom you spent more than 15 minutes within 6 feet, without a mask, starting 2 days before illness onset or, for asymptomatic cases, 2 days prior to specimen collection.	No , you should self-quarantine and follow CDC guidelines. Work from home and do not go into public spaces for at least 14 days.	Yes , household or other close contacts should be tested for COVID-19, even with no symptoms.	Call your immediate supervisor and email Human Resources.	Your healthcare provider will manage your health needs. Continue to self-monitor your health daily . Public health officials will advise you about return to work timing.
Coworker, friend or casual contact tests positive: Someone you were not within 6 feet of for more than 15 minutes, without a mask.	Yes, you can work on campus as long as you do not have any symptoms and you were not a close contact (see above).	Maybe. You are not considered a close contact, but could choose to be tested.	No notification needed.	If you have no symptoms, you do not need healthcare. Continue to self-monitor your health daily .
Friend of a friend tests positive. You were in contact with your friend but not the person who tested positive.	Yes, you can work as long as you do not have any symptoms.	Not unless you have symptoms.	No notification needed.	If you have no symptoms, you do not need healthcare. Continue to self-monitor your health daily .

- Hampshire employees, please contact your own healthcare provider for your health needs or locate a testing site near you: COVID-19 Test Site Locator: COVID-19 Testing Locator: <https://memamaps.maps.arcgis.com/apps/webappviewer/index.html?id=eba3f0395451430b9f631cb095febf13>
- COVID-19 Prevention includes: maintain physical distance of at least 6 feet, wear a face covering in all public spaces, monitor symptoms daily, limit close contacts, wash hands, don't share personal items, and disinfect commonly touched surfaces frequently.
- Daily: Review the [COVID-19 LIST SELF-MONITORING SYMPTOMS CHECKLIST](#)
