

Tufts Health Plan Network Urgent Care Centers

Tufts Health Plan's network includes Urgent Care Centers. These centers are cost-effective alternatives available to you when your PCP is not available and you need care quickly. Urgent Care Centers are growing in numbers and are staffed by qualified doctors to treat:

- ▶ Head colds, ear or throat infections, stomach pain, fever, or headache (walk-in service for after-hours care)
- ▶ Minor trauma (e.g., eye injuries, or cuts and burns that do not respond to basic first aid)
- ▶ Back/muscle pain, strain, or sprain that cannot wait for PCP hours

- ▶ Any non-life-threatening illness or injury (broken bones)
- ▶ Sprains with swelling and discoloration
- ▶ Ear infections associated with severe pain, fever, or discharge from ear

Urgent Care Centers are not appropriate for medical situations that are emergencies or that need to be treated in a hospital setting.

Accessible health care, any day—every day—24/7

In most cases, when you need care or treatment, your best option is to make an appointment with your PCP. If you're experiencing a medical emergency, call 911 or go to the nearest Emergency Room.

Here are some general guidelines for what to do when you need care or have questions:

Your PCP should be your first and best option whenever possible. See your PCP to:

- ▶ Get a checkup
- ▶ Get non-urgent or non-emergency care
- ▶ Ask general questions about your health
- ▶ Get a referral to see a specialist if required by your plan

If you need help choosing a PCP, please call the number on the back of your member ID card or visit our Doctor Search online.

Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Por servicio de traducción gratuito en español, llame al número de su tarjeta de miembro. 若需免費的中文版本，請撥打ID卡上的電話號碼。

Convenient Care Center

Consider using a local Convenient Care Center—located inside many pharmacies—when you need routine, non-urgent health services outside your PCP's office hours. They are staffed by nurse practitioners and physician assistants who can:

- ▶ Diagnose and prescribe medication to treat strep throat, pinkeye, and infections of the ears, nose, and throat
- ▶ Administer routine vaccinations for flu, pneumonia, pertussis, and more

Urgent Care Center

Consider an Urgent Care Center when your PCP is not available and you need care quickly but your care may not require a hospital setting. Urgent Care Centers are growing in numbers and are staffed by qualified doctors to treat:

- ▶ Head colds, ear or throat infections, stomach pain, fever, or headache (walk-in service for after-hours care)
- ▶ Minor trauma (e.g., eye injuries, or cuts and burns that do not respond to basic first aid)
- ▶ Back/muscle pain, strain, or sprain that cannot wait for PCP hours
- ▶ Any non-life-threatening illness or injury (broken bones)
- ▶ Sprains with swelling and discoloration
- ▶ Ear infections associated with severe pain, fever, or discharge from ear

911 or Emergency Room

Call 911 or go to your nearest hospital emergency room if you think you have a medical condition that could endanger life or limb if not treated immediately. Some examples are:

- ▶ Chest or upper abdominal pain or pressure
- ▶ Uncontrollable bleeding or problems breathing
- ▶ Allergic reactions
- ▶ Fainting, sudden dizziness, weakness
- ▶ Changes in vision
- ▶ Confusion or changes in mental status
- ▶ Loss of sensation or movement in a limb
- ▶ Severe pain
- ▶ Suicidal feelings
- ▶ Difficulty speaking
- ▶ **Any other symptoms that require immediate medical attention**

And you can call our [FREE 24-Hour Nurseline](#) at 866.201.7919 anytime you have a question about your health or want more information about a condition.
